Correcting student work

Occasionally, students in the class may correct the work of other students. This practice is an important educational tool which allows students an opportunity to review assignments or quizzes. It also allows them to consider problem solving that may be different from their own, as well as it gives the teacher the opportunity to provide further clarification and answer questions.

If you do not want your student's work to be corrected by others, make a note on this release form or e-mail me and I will always correct your student's work.

Thank you for your support. If you have any questions or concerns throughout the year, please feel free to call me or contact me by e-mail. Mike.Robinson@besd.net

Spanish Movie Permission Release

At times throughout the trimester a portion of class will be used viewing movies in Spanish. These movies will be used to help with the listening aspect of Spanish. I believe that listening to native speakers at native speed helps enhance student's ability to understand the spoken word. All movies viewed will have a rating of G or PG. There will be no PG-13 or higher rated movies shown. A complete movie listing will be supplied upon request.

By signing below, you as a parent or guardian give your permission for your student to view these Spanish movies. Alternate activities will be provided during the viewing of the Spanish films. This permission will remain in effect for the duration of the course.
